

5. Amplified Handset

Categories: Hearing and Speech

Manufacturer: Clarity

Weak voice? The Amplified Handset replaces the handset on most phones and helps to amplify your own voice. The Clarity Handset amplifies outgoing sounds up to 26 dB and is compatible with many of Clarity's most popular corded phones. The Amplified Handset is an ideal solution for those with low speech volume.

Features

- Amplifies outgoing sounds up to 26 decibels
- Volume dial on back of handset makes it easy to adjust the outgoing amplification while you are on a call
- Hearing Aid Compatible
