

9. ElectroLarynx

Categories: Speech

Manufacturer: Griffin

People who have lost their larynx will benefit from the ElectroLarynx, however, it is not recommended for those who have had a stroke. Held to the neck, the ElectroLarynx clarifies speech when talking on the phone. This electronic speech aid is the only one with tone control in a single button. It has the widest tonal range available in an electrolarynx, as well as the best sound quality available in a neck-type artificial larynx.

Features

- Adjustable volume and pitch
- Allows voice inflection
- Dual on/off control
- Water resistant

Specifications

- Includes two 9-volt batteries, charger, and an oral connector
- Operating Instruction Booklet
